

CONNIE CHU
Senior Administrative Assistant

Business Services

Connie Chu cares and her caring truly makes a difference. As Administrative Assistant in Business Services, Connie successfully handles multiple projects at one time, is efficient in completing her work and often takes on more and new responsibilities with graciousness. She is respected by her peers and her support is often sought by staff at the District Office, school sites and other departments due to her expertise in multiple areas.

Connie has gone above and beyond, dedicating extensive extra time in after-work meetings to prepare and inform staff and the community regarding the District's facility needs. Her work contributed to the passage of the \$218 million Measure I Facilities Bond by the citizens of Arcadia with the result directly impacting the classroom and the ability for teachers to present engaging work in facilities that provide the environment, infrastructure and technology for a first class education.

Connie is always professional, courteous and pleasant. She is not easily, if ever, flustered or impatient and she is always respectful of her colleagues and community contacts. The District often receives compliments from the public and outside agencies about her efficient, caring and prompt attention to matters.

Connie is a very dedicated individual and a vital part of the District Office staff. She truly exemplifies the spirit of a *Profile in Excellence*.
